SMJ CONSULTING LLC

CAPABILITY STATEMENT

Earned Value Management and Program Control

Women-Owned Small Business · In business since 2007

SMJ Consulting LLC helps government contractors build, run, and repair earned value management systems. Since 2007 we have supported program control teams and program managers on NASA, DoD, and DOE programs, from proposal and integrated baseline review through DCMA surveillance and day-to-day execution. We support any team that needs it: primes, subcontractors, and government program offices.

CORE COMPETENCIES

- **EVMS implementation** aligned to EIA-748, from system description through IBR
- **DCMA review and surveillance readiness**, including DECM metrics and corrective action support
- **EVMS recovery** for systems where cost, schedule, and scope have drifted apart
- **Integrated master schedule** development, schedule health checks, and DCMA 14-Point analysis
- **Monthly EVM operations**: performance and variance analysis, EACs, and IPMDAR reporting
- **Proposal support**: management volume EVMS sections, cost volumes, and basis of estimates
- **EVMS and scheduling training** for program control teams and program management

WHY SMJ

- Hands-on experience with DCMA validation reviews, surveillance, and DOE EV reviews
- Practitioners who have run cost and schedule control on major programs, not just advised on it
- Training delivered to more than 500 program managers and program control professionals
- Fluent in the tools clients already use, so support starts on day one
